Attractive Luxury

SWISSMEMORYprestige

Take your data with you on a first class traveller. The USB memory stick from the SWISSMEMORYprestige collection is just the right tool on which to carry along your most precious data in incomparable style. Perfectly finished with precious materials and containing the latest USB storage technology, this memory stick can, thanks to a patented technology, be detached from the main body in order to be exchanged or

up-grade at a later date. The SWISSMEMORYprestige collection is available only in shells of solid 925-sterling silver or 18 ct. white and yellow gold. Each model comes in either shiny or matt finish and in various classical and modern patterns. Some designs are handcrafted, mounted with natural diamonds by the world's best craftsmen, all 100% SWISS MADE. Each design from this collection is strictly limited.

Refinement

Bonfort Switzerland creates exclusive status symbols for the most discerning individuals around the globe. With exquisite design, a love of details and Swiss craftsmanship, we turn your dreams into an exclusive masterpiece. It's not just the gold or sterling silver, the breathtaking blaze of sparkling diamonds or the flawless finish that makes this piece unique, but it's our passion and our passion is perfection.

Attractive

Specifications

The SWISSMEMORYprestige consists of the artistically refined solid main body of the classic Swiss Army knife, fully refined either in 925-sterling silver or 18ct. yellow or white gold. The USB memory stick can be detached from the main body, made possible by patented technology, in order to exchange

or upgrade the device in the future. The USB memory stick is provided by world renowned Swiss manufacturer Swissbit® and has memory storage of a minimum of 1GB. Just plug your SWISSMEMORYprestige into the USB port of your device and begin transferring your data. It is as simple as that.

Performance Parameters

- USB 2.0 high-speed device, USB 1.1 full speed compliant
- Data transfer rate from up to 8MB per second via a USB 2.0 port (Speed depends on the computer, operating system and application)
- Supports the energy saving mode when connected to a mobile device.
- Compatible with Windows® 98SE, ME, 2000/2000 SP4 and XP operating systems as well as MAC OS 9.0 and above and Linux Kernel 2.4 and above
- LED lights up when the device is in operation and flashes during the data transfer.
- Can be used any time and in any place with Plug & Play.
- Travel it Easy™ Software (only compatible with Windows® 2000/XP)
- Data remains stable for at least ten years.
- Automatic bad block management
- Error Correction (ECC) on the fly
- Voltage supplied through the USB connection of the operating computer, 4.4 - 5.25 VDC
- Current consumption: write/read 150 - 200 mA
- Norms and standards: CE, FCC, USB 2.0 Hi-Speed
- Actual usable memory capacity of USB drive may vary. 1MB equals 1 million bytes; 1GB equals 1 billion bytes. Formatting and other functions will use some drive capacity.

Travel-it-Easy™ Software

The Travel it Easy™ software stored on the USB drive guarantees a multitude of add-on functions and converts the USB storage medium into your pocket-size office. The password protection enables data to be provided with or without password depending on the individual preference. With the function «My Documents synchronization», you can select the appropriate folders in «My Files» on the PC and synchronize these with the USB drive. You can also synchronize with Outlook Express or store your Internet favorites on the USB drive and synchronized with the PC when connected. Travel it Easy™ is exclusively Windows® 2000 (Service Pack 4 is recommended) and XP compatible.

Patented detachable USB memory storage of latest technology made in Switzerland by swissbit®
